Index of Subjects

African horse sickness, transmission patterns of, and equine encephalosis viruses in South African donkeys, 265
Bluetongue virus, studies on the epidemiology of, in China, 257
Bordetella pertussis, serological diagnosis of pertussis: evaluation of IgA against whole cell and specific, antigens as markers of recent infection, 161
Campylobacter, public health implications of, outbreaks in England and Wales, 1995–9: epidemiological and microbiological investigations, 111
Campylobacter, the impact of sporadic, and salmonella infection on health and health related behaviour: a case control study, 529
Campylobacter, the seasonal distribution of, infection in nine European countries and New Zealand, 383
Capripox-rinderpest virus, long term immunity in African cattle vaccinated with a recombinant, vaccine, 343
Cryptosporidiosis, a community survey of self-reported gastroenteritis undertaken during an outbreak of, strongly associated with drinking water after much press interest, 433
Cryptosporidiosis, case-control studies of sporadic, in Melbourne and Adelaide, Australia, 419
Equine encephalosis, transmission patterns of African horse sickness and, viruses in South African donkeys, 265
***Escherichia coli* serogroup O166:H15**, an outbreak of gastroenteritis in Osaka, Japan due to, that had a coding gene for enteroaggregative *E. coli* heat-stable enterotoxin 1 (EAST1), 363
***Escherichia coli* O157**, comparison between human and animal isolates of Shiga toxin-producing, from Australia, 359
Flavivirus, assessment of the factors associated with, seroprevalence in a population in Southern Vietnam, 213
Foot-and-mouth disease, dose-response relationships for, in cattle and sheep, 325
Foot-and-mouth disease, further studies to quantify the dose of natural aerosols of, virus for pigs, 313
Foot-and-mouth disease, natural aerosol transmission of, virus to pigs: minimal infectious dose for strain 0_1 Lausanne, 301
Hantaviruses, serological divergence of Dobrava and Saaremaa: evidence for two distinct serotypes, 99
Helicobacter pylori, the burden of, infection in England and Wales, 411
Hepatitis A, the changing epidemiological patterns of, in England and Wales, 457
Hepatitis B, epidemiology of, infection among the Nicobarese – a mongoloid tribe of the Andaman and Nicobar Islands, India, 465
Hepatitis B, modelling death rates for carriers of, 83
Hepatitis B, vaccination against, in low endemic countries, 229
Hepatitis C, prevalence of, among injectors in Scotland 1989–2000: declining trends among young injectors halt in the late 1990s, 473
HIV, prevalence of and risk factors for, infection in blood donors and various population subgroups in Ethiopia, 221
HIV, risk factors in, -associated diarrhoeal disease: the role of drinking water, medication and immune status, 73
Influenza and pneumococcal vaccine distribution and use in primary care and hospital settings in Scotland: coverage, practice and policies, 445
Influenza, clinical effectiveness of conventional, vaccination in asthmatic children, 205
Influenza, modelling equine, 1: a stochastic model of within-yard epidemics, 491
Leptospira, prevalence of, spp. in various species of small mammals caught in an inner-city area of Switzerland, 107
Leptospirosis, changing epidemiology of human, in New Zealand, 29
Listeria monocytogenes, a listeriosis patient infected with two different, strains, 105
Listeria monocytogenes, meningitis: serotype distribution and patient characteristics in The Netherlands, 1976–95, 405
Measles, protecting the vaccinating population in the face of a, epidemic: assessing the impact of adjusted vaccination schedules, 47
Mycobacterium tuberculosis, pyrazinamide resistance associated with *pncA* gene mutation in, in Japan, 337
Neisseria meningitidis, increase in meningococcal disease associated with the emergence of a novel ST-11 variant of serogroup C, in Victoria, Australia, 1999–2000, 7
Neisseria meningitidis, multilocus sequence typing of, directly from cerebrospinal fluid, 157
Neisseria meningitidis, prevalence of moderate penicillin resistant invasive, infection in Scotland, 1994–9, 149
Nipah virus, a survey of, infection among various risk groups in Singapore, 93
Papillomaviruses, human, in Amerindian women from Brazilian Amazonia, 485
Parvovirus B19, seroprevalence of, in urban Chilean children and young adults, 1990 and 1996, 59
Pneumococcal, incidence of invasive, disease in Scotland, 1988–99, 139
Pneumococcal, influenza and, vaccine distribution and use in primary care and hospital settings in Scotland: coverage, practice and policies, 445
Pneumococcal, non-invasive, disease and antimicrobial resistance: vaccine implications, 21
Rabies, genealogical analyses of, virus strains from Brazil based on N gene alleles, 503
Salmonella enterica, an outbreak of multidrug-resistant, subsp. *enterica* serotype Typhimurium, DT104L linked to dried anchovy in Singapore, 1

***Salmonella enterica* serotype Abortusovis**, IS*200* fingerprinting of, strains isolated in Iran, 333

***Salmonella enterica* serovar Bovismorbificans**, phage typing and PFGE pattern analysis as tools for epidemiological surveillance of, infections, 119

Salmonella, the impact of sporadic campylobacter, and, infection on health and health related behaviour: a case control study, 529

***Salmonella* Typhimurium**, molecular epidemiology of, isolates from human sporadic and outbreak cases, 373

***Salmonella* Typhimurium**, prevalence of, infection in Norwegian hedgehog populations associated with two human disease outbreaks, 523

Scrapie, comparative epidemiology of, outbreaks in individual sheep flocks, 513

Shigella, prevalence of the genes for, enterotoxins 1 and 2 among clinical isolates of, in Israel, 533

Staphlococcus aureus, molecular subtyping of, from an outbreak associated with a food handler, 15

Streptococcus pyogenes, distribution of *emm* genotypes and superantigen genes of, isolated in Japan, 1994–9, 397

Streptococcus pyogenes prtFII, but not *sfbI*, *sfbII* or *fb*54, is represented more frequently among invasive-disease isolates of tropical Australia, 391

Strongyloides stercoralis, chronic, infection in Laotian immigrants and refugees 7–20 years after resettlement in Australia, 439

Swine fever, rate of inter-herd transmission of classical, virus by different types of contact during the 1997–8 epidemic in The Netherlands, 285

Swine Fever, within- and between-pen transmission of Classical, Virus: a new method to estimate the basic reproduction ratio from transmission experiments, 293

Swine vesicular disease, isotype specific ELISAs to detect antibodies against, virus and their use in epidemiology, 277

Tetanus, a method for adjusting gender bias in neonatal, reports in Egypt 1991, 169

Transmission, quantification of, in one-to-one experiments, 193

Transmission-transmitted diseases, tattooing and risk for: The role of the type, number and design of the tattoos, and the conditions in which they were performed, 63

Tuberculin, predictors of, reactivity among prospective Vietnamese migrants: the effect of smoking, 37

Tuberculosis, the molecular epidemiology of, in inner London, 175

Tula hantavirus in Belgium, 251

Vaccinations, detection of delayed: a new approach to visualize vaccine uptake, 185

Varicella, assessment of, underreporting in Italy, 479

Vibrio cholerae, incidence and molecular analysis of, associated with cholera outbreak subsequent to the super cyclone in Orissa, India, 131

Waterborne disease, antibodies in crevicular fluid: an epidemiological tool for investigation of, 245
